Anilkumar Kapala

Senior Frontend Engineer | Angular Specialist | Micro Frontend Architect
Bengaluru, Karnataka, India | 9035333566 | bornfreeani@gmail.com | linkedin.com/in/anilkumarkapala | anilkapala.netlify.app

PROFESSIONAL SUMMARY

Senior Frontend Engineer and Technical Leader with 13+ years of experience designing and delivering scalable enterprise applications across Fintech, SaaS, Healthcare, Trading, Digital Lending and enterprise technology. Specialized in Angular, TypeScript, NgRx, RxJS, Nx Monorepo, Micro Frontends, Module Federation and modern frontend architecture, with additional experience in Node.js, React, CI/CD, Kubernetes, Helm and automated testing. Experienced in building reusable frontend platforms and independently deployable Micro Frontends while contributing to technical leadership, delivery planning, code reviews and cross-functional collaboration.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML5, CSS3, SCSS

Frontend: Angular, RxJS, NgRx (Store, Effects, Entity), Signals, React, Webpack

Architecture: Micro Frontends, Module Federation, Nx Monorepo, Reusable Component Libraries, NPM Packages, Enterprise Application Architecture

Backend: Node.js, Express, REST APIs, Ruby on Rails

Databases: MongoDB, MySQL, SQLite

Testing: Jest, Playwright, Cypress, Unit and Integration Testing

DevOps / Tools: CI/CD, GitLab CI/CD, Jenkins, GitHub Actions, Docker, Helm, Kubernetes, Nexus, Git, NPM

PROFESSIONAL EXPERIENCE

Fair Isaac India Software Private Limited (FICO) | Bengaluru | 10/2024 – Present

Senior Engineer

Technologies: Angular 19, TypeScript, NgRx, RxJS, Nx, Module Federation, Jest, Helm, Kubernetes, Node.js

- Architect and deliver enterprise Angular 19 applications as independently deployable Micro Frontends using Nx Monorepo and Module Federation.
- Develop Feature Management capabilities for enterprise financial technology applications.
- Improved application performance by approximately 30% through lazy loading, code splitting, efficient rendering and modular architecture.
- Reduced development effort by approximately 25% by building reusable UI components and shared libraries.
- Implement NgRx Store, Effects, Entity and selectors with RxJS for predictable application state.
- Raise code quality and reduce production defects with Jest unit and integration tests and code reviews.
- Support CI/CD, Helm and Kubernetes deployments with DevOps; contribute to sprint planning, task distribution and delivery tracking.
- Grand Prize Winner – AWS Cost Optimization Hackathon at FICO.

Perfios Software Pvt. Ltd. | Bengaluru | 08/2022 – 10/2024

Senior Technical Lead

Technologies: Angular 14+, Node.js, React, REST APIs, GitLab CI/CD

- Led frontend and technical delivery for the Digital Lending Platform using Angular 14+ and Node.js.
- Designed and implemented Business Rule Engine workflows for customer profiles, eligibility evaluation and lending decisions.
- Integrated REST APIs and strengthened data security with encrypted request and response payloads.
- Conducted code reviews, sprint planning and task distribution to improve team productivity and code quality.
- Reduced manual deployment effort and errors with GitLab CI/CD pipelines.
- Built internal tools and one small project in React alongside the primary Angular work.

EKA Software Solutions | Bengaluru | 04/2021 – 08/2022

Senior Software Engineer

Technologies: Angular, Node.js, MongoDB, JavaScript, SCSS, Jenkins, React

- Developed responsive Angular modules and reusable UI components for commodity trading and supply chain applications.

- Built Node.js application functionality and JavaScript data-processing scripts for MongoDB collection and document updates.
- Created Jenkins pipelines that reduced manual deployment effort and deployment errors.
- Built one small React project alongside the primary Angular work.

Digital Harbor, Inc. | Bengaluru | 12/2018 – 03/2021
Senior Software Engineer
Technologies: Angular, Webpack, NPM, Nexus, HTML5, CSS3

- Developed Angular applications for a Healthcare Risk Management platform.
- Designed reusable Angular components, shared user profile modules and NPM packages, published and versioned through Nexus.
- Reduced development effort by approximately 30% through reusable NPM component libraries.
- Followed coding standards and participated in code reviews to improve modularity and maintainability.

NTT DATA | Bengaluru | 07/2015 – 12/2018
Senior Consultant / UI Consultant
Technologies: Angular, React, Node.js, HTML5, CSS3, WCAG, Salesforce UI Components

- Delivered enterprise UI for client projects including Honeywell, TIAA-CREF, Kimberly-Clark, Sky Network and XFactor.
- Built responsive, accessible interfaces to WCAG requirements and converted PSD designs into pixel-perfect pages with cross-browser compatibility.
- Developed reusable Angular UI components and Salesforce UI components in collaboration with designers.
- Used React on client project work alongside Angular.

Gladminds Co. | Bengaluru | 03/2015 – 07/2015
Software Engineer
Technologies: jQuery, PhoneGap, Cordova, PHP, SQLite

- Developed the AfterBuy and AfterSell service applications, including hybrid mobile apps with PhoneGap/Cordova.
- Implemented offline functionality with SQLite that improved field-user productivity by approximately 20%.

Bitla Software Pvt. Ltd. | Bengaluru | 10/2012 – 02/2015
Software Engineer
Technologies: Ruby on Rails, JavaScript, jQuery, HTML5, CSS3, MySQL

- Developed scalable, responsive SaaS web applications for the transport and hospitality domains.
- Built frontend interfaces and Ruby on Rails backend features; debugged issues and worked in Agile teams with version control.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science – Prajna Institute of Technology & Management, JNTU Kakinada | 2008–2012

COURSES

Modern Angular 21 with Signals – The Missing Guide (Udemy) – in progress, 03/2026 – Present

LANGUAGES

English (Fluent), Telugu (Native)
