ANILKUMAR KAPALA

Senior Frontend Engineer | Technical Lead | Frontend Architect

Bengaluru, India | 9035333566 | bornfreeani@gmail.com | linkedin.com/in/anilkumarkapala | anilkapala.netlify.app

PROFESSIONAL SUMMARY

Senior Frontend Engineer and Technical Leader with **13+ years** of experience delivering scalable enterprise applications across Fintech, Digital Lending, Healthcare Risk Management, Commodity Trading, Supply Chain, SaaS, Transport, Hospitality and Service Operations. Specialized in **Angular**, **TypeScript**, **NgRx**, **RxJS**, **Nx Monorepo**, **Micro Frontends** and **Module Federation**, with additional experience in React, **Node.js**, CI/CD, Docker, Kubernetes, Helm and automated testing. Builds reusable frontend platforms and independently deployable Micro Frontends while contributing to technical decisions, sprint planning, code reviews and cross-functional delivery.

CORE COMPETENCIES

Frontend Architecture • Angular Architecture • Micro Frontends • Module Federation • Nx Monorepo
State Management • Reusable Component Architecture • Shared Libraries • Performance Optimization
Lazy Loading & Code Splitting • Independent Deployments • CI/CD • Automated Testing • Technical Leadership
Code Reviews • Sprint Planning • Delivery Coordination • Cross-Functional Collaboration

TECHNICAL SKILLS

Frontend: Angular (4–21), React (Hooks, Redux, Redux Toolkit, React Router), TypeScript, JavaScript, HTML5, CSS3, SCSS, jQuery

State Management: NgRx (Store, Effects, Entity, Selectors), NgRx ComponentStore, Angular Signals, RxJS, Facade Pattern

Architecture: Micro Frontends, Module Federation, Nx Monorepo, Shared Libraries, Reusable Components, Angular NPM Packages

Backend & Data: Node.js, Express.js, REST APIs, Ruby on Rails, PHP, MongoDB, MySQL, SQLite

Testing: Jest, Playwright, Cypress, React Testing Library, Unit, Integration and End-to-End Testing

Build & DevOps: Nx, Nx Cloud, Webpack, Vite, NPM, Nexus, JFrog, Docker, Kubernetes, Helm, GitLab CI/CD, GitHub Actions, Jenkins

Other: Git, GitHub, GitLab, WCAG, Responsive Web Design, Apache Cordova, PhoneGap

AWARDS & RECOGNITION

- **Grand Prize Winner — AWS Cost Optimization Hackathon**, Fair Isaac India Software Private Limited (FICO)

PROFESSIONAL EXPERIENCE

Fair Isaac India Software Private Limited (FICO)

Senior Engineer | Oct 2024 – Present | Bengaluru, India | Fintech / Enterprise Technology

Technologies: Angular 19, TypeScript, NgRx, RxJS, Nx Monorepo, Micro Frontends, Module Federation, Node.js, Jest, CI/CD, Helm, Kubernetes

- Develop enterprise financial technology applications, including **Feature Management** capabilities, using **Angular 19**, **TypeScript** and **RxJS**.
- Designed and implemented **Micro Frontend architecture** using **Nx Monorepo** and **Module Federation**, with remote applications, shared libraries and independently deployable modules that improved scalability and maintainability.
- Reduced development effort by **approximately 25%** by establishing reusable UI components, shared libraries and modular frontend architecture.
- Improved system/application performance by **approximately 30%** through lazy loading, code splitting and efficient rendering.
- Implemented **NgRx** state management (Store, Effects, Entity, Selectors) with signal-based patterns and facade-style architecture, improving data-flow efficiency by **approximately 30%**.
- Strengthened code quality and deployment reliability through **Jest** testing, code reviews, engineering standards and **CI/CD** with **Helm/Kubernetes** deployments alongside DevOps teams.
- Contribute to technical decisions, sprint planning, task distribution and project tracking for cross-functional delivery.

Perfios Software Pvt. Ltd.

Senior Technical Lead | Aug 2022 – Oct 2024 | Bengaluru, India | Digital Lending

Technologies: Angular 14+, Node.js, REST APIs, GitLab CI/CD, Encryption, React

- Led frontend and technical delivery for a **Digital Lending Platform** using **Angular 14+** and **Node.js** integrations, improving scalability and performance.
- Designed and implemented business-rule-driven workflows for a **Business Rule Engine** covering customer profiles, eligibility and lending decisions.
- Strengthened data security through secure **REST API** integrations and encrypted request/response payloads.
- Reduced manual release effort and deployment errors through **GitLab CI/CD** pipeline automation.
- Contributed to sprint planning, distributed technical tasks, tracked delivery and conducted code reviews, improving team productivity and code quality.
- Built internal tools and a small application in React alongside the primary Angular platform.

EKA Software Solutions

Senior Software Engineer | Apr 2021 – Aug 2022 | Bengaluru, India | Commodity Trading / Supply Chain

Technologies: Angular, JavaScript, Node.js, MongoDB, SCSS, Jenkins, React

- Developed responsive **Angular** modules and reusable UI components with **SCSS** for commodity trading and supply chain applications.
- Developed **Node.js** functionality and streamlined **MongoDB** data operations with JavaScript scripts for collection and document processing.
- Created **Jenkins** pipelines that reduced manual deployment effort and errors and improved release consistency.
- Built a small React project alongside the primary Angular application work.

Digital Harbor, Inc.

Senior Software Engineer | Dec 2018 – Mar 2021 | Bengaluru, India | Healthcare Risk Management

Technologies: Angular, Webpack, NPM, Nexus, HTML5, CSS3

- Reduced development effort by **approximately 30%** by building reusable **Angular NPM component libraries** and shared frontend modules.
- Designed reusable Angular components and shared user profile modules for a **Healthcare Risk Management Platform**, improving consistency and maintainability.
- Published and versioned packages through **Nexus**, improving dependency management; upheld coding standards through code reviews.

NTT DATA

Senior Consultant / UI Consultant | Jul 2015 – Dec 2018 | Bengaluru, India | Enterprise UI

Technologies: Angular, HTML5, CSS3, Node.js, WCAG, Salesforce UI Components, React

- Delivered responsive, accessible enterprise UI with **Angular**, **Node.js** and Salesforce UI components for clients including Honeywell, TIAA-CREF, Kimberly-Clark, Sky Network and XFactor.
- Developed reusable Angular UI components and implemented **WCAG**-oriented, cross-browser, pixel-perfect PSD-to-HTML interfaces in collaboration with designers.
- Developed React-based interfaces for client project work alongside primary Angular delivery.

Gladminds Co.

Software Engineer | Mar 2015 – Jul 2015 | Bengaluru, India | Service Operations

- Developed AfterBuy and AfterSell hybrid applications using **jQuery**, **PhoneGap/Cordova**, PHP and SQLite, improving field-user productivity by **approximately 20%** through offline functionality.

Bitla Software Pvt. Ltd.

Software Engineer | Oct 2012 – Feb 2015 | Bengaluru, India | Transport / Hospitality / SaaS

- Developed scalable SaaS applications with **Ruby on Rails**, **JavaScript**, jQuery, HTML5, CSS3 and MySQL, delivering responsive interfaces and backend features in an Agile team.

EDUCATION & PROFESSIONAL DEVELOPMENT

Bachelor of Technology (B.Tech), Computer Science — Prajna Institute of Technology & Management, JNTU Kakinada | 2008 – 2012

Modern Angular 21 with Signals – The missing guide — Udemy | Mar 2026 – Present (in progress)

Languages: English (Fluent), Telugu (Native)
